

Garbage Disposal Replacement Checklist

Before You Begin

- Turn off power at the breaker
- Gather tools and materials (disposal, wrench, putty, etc.)

Remove Old Disposal

- Unplug or disconnect wires
- Disconnect drainpipe and dishwasher hose
- Twist disposal off mounting bracket
- Remove old mounting assembly and clean sink area

Install New Unit

- Apply plumber's putty and install new flange
- Attach and tighten new mounting ring
- Connect power or wiring
- Lock disposal into place and reattach pipes

Final Steps

- Restore power
- Run water and test for leaks
- Check disposal function
